STUDENT DEVELOPMENT ADVISOR TEAM

XJTLU is a newly international university with significant features. The University takes student-centeredness as the cultural cornerstone. The innovative education philosophy aims to teach students independent learning, lead students to self-exploration of real interests and preparation of future life plan. Student Development Advisors (hereinafter referred to as DAs), play important roles during your development at XJTLU. As one of the Four-Tutor System, DAs will, from the perspective of an advisor, guide you to experience the Three Transformations process, integrate multiple resources as coordinators and provide specialized supports as experts.

Under XJTLU's international context, if you encounter any problems about your life or individual development, you may come to DAs. Your DA, in consideration of your situation and the integration of campus resources, will give you necessary suggestions and help on the basis of respect and trust. Meanwhile, DAs will provide a free environment for student development; they will not over intervene your life.

As an advisor, PG DA supports students who come for advice or helps students who are confronted with difficulty or have potential risks. PG DAs will also correspondingly set up proactive contacts with students who might have encountered challenges at campus, integrate resources inside and outside the university, and facilitate your individual development. To contact with your DA, please find your DA's information on e-Bridge.
